Janet Forbes

WORLDANVIL

In this seminar:

- What's wrong with your worldbuilding?
- Why does that matter?
- What elements make a world rich and deep?
- How can you develop YOUR world?
- What if you're starting a world from scratch?

WORLDANVIL

**The problem:
your world is only as
big as your story.**

WORLDANvil

Your worldbuilding is:

- clinging around your main characters
- inconsistent or unconnected
- feels tropey or uninteresting
- uninspiring to YOU

A dark, stylized world map with various geographical features and buildings. The map is rendered in shades of blue, green, and brown, with a prominent building on a hill at the top. The text "Why is worldbuilding SO important?" is overlaid in white, bold, sans-serif font.

**Why is worldbuilding
SO important?**

WORLDANVIL

A detailed fantasy map with a castle on a cliff, a ship, and a dragon. The map is rendered in a dark, stylized aesthetic with various terrain types and structures. The background is a dark, textured surface, possibly representing a globe or a map of the world.

Worldbuilding is:

- **LITERALLY** genre-defining for Fantasy (and Scifi)!
- the formative factor of your characters and their past
- the origin of your plots
- the thing your readers remember long after the characters and plot have faded (and will bring them back!)

WORLDANVIL

**What are the
opportunities of
building rich worlds?**

WORLDANVIL

Why build rich worlds?

- Save time by reusing your worldbuilding work
- Repeat readers love coming back to the same worlds
- Richer stories with more depth and impact
- A constant source of new inspiration for your stories and characters

Why build rich worlds?

“In the world of IP creative content and branded franchises, the world-builder is king.”

Thirty-two of the 50 top-grossing movies of all time are films that belong to identifiable fantasy universes – Pandora, Oz, Narnia, Middle-earth, Hogwarts, Neverland, Wonderland – luring moviegoers into theatres with the promise of return to a beloved fictional world, like a tourist returning to their favourite spot.”

- Tom Shone, Author & Critic

The Guardian (2022)

Why build rich worlds?

Robin Hobb has 16 books set in the same universe BUT they're arranged in 5 trilogies

Why build rich worlds?

Brandon Sanderson has 7 books set in the same universe (2 trilogies), with another trilogy coming in 2025

“OK, you’ve convinced me:
I need a rich, deep world setting!

So...”

WORLDANVIL

A dark, stylized map of a fantasy world. The map features various geographical features like mountains, rivers, and forests, rendered in shades of blue, green, and brown. Several structures are visible, including a large domed building at the top, a lighthouse on the left, and a castle on the right. The overall aesthetic is that of a classic fantasy role-playing game map.

**What makes
worldbuilding feel
deep and rich?**

WORLDANVIL

What makes worldbuilding feel deep and rich?

The laws of the world feel consistent (even when that's inconvenient for the storyteller)

What makes worldbuilding feel deep and rich?

The repercussions of past events are felt in the present and define the future

What makes worldbuilding feel deep and rich?

The people and cultures feel “real” and interesting

What makes worldbuilding feel deep and rich?

The world does not revolve around your main characters

What makes worldbuilding feel deep and rich?

The world's interesting or unique premise has been well worked out and thought through*

PLAN OF ACTION:
How do you convert a shallow world into a deep and rich one?

WORLDANVIL

Build deep not wide: define your active worldbuilding area.

- A city and surrounding area (e.g. Neverwhere)
- A region (e.g. Lord of the Rings)
- A continent (e.g. Game of Thrones)
- A planet (e.g. The Dragonriders of Pern)
- A solar system (e.g. the Expanse)
- A quadrant of a galaxy (e.g. Star Trek)
- A whole galaxy (e.g. Star Wars)

TO DO:
**Define your active
worldbuilding area**

i 3-5 Focus topics concentrate your efforts

- Government Presence
- Rule Of Law
- Social Services
- Economic Strength
- Wealth Distribution
- Agriculture And Trade
- Race Relations
- Class Relations
- Gender Relations
- Sexual Orientation Relations
- Military Influence
- Religious Influence
- Technology Influence
- Arts And Culture Influence

i 3-5 Focus topics concentrate your efforts

- Class Relations
- Gender Relations
- Religious Influence
- Rule Of Law
- ~~Government Presence~~
- ~~Social Services~~
- ~~Economic Strength~~
- ~~Wealth Distribution~~
- ~~Agriculture And Trade~~
- ~~Race Relations~~
- ~~Sexual Orientation Relations~~
- ~~Military Influence~~
- ~~Technology Influence~~
- ~~Arts And Culture Influence~~

STAR
WARS

3-5 Focus topics concentrate your efforts

- The Natural World
- Species Relations
- Technology Influence
- ~~Government Presence~~
- ~~Social Services~~
- ~~Economic Strength~~
- ~~Wealth Distribution~~
- ~~Agriculture And Trade~~
- ~~Race Relations~~
- ~~Sexual Orientation Relations~~
- ~~Military Influence~~
- ~~Technology Influence~~
- ~~Arts And Culture Influence~~
- ~~Class relations~~
- ~~Gender relations~~

STAR TREK

The Star Trek logo is displayed in a stylized, metallic font with a blue and white gradient. It is centered within a large, golden, three-pointed star shape. The background of the logo is a dark, starry space with a blue nebula on the right side.

TO DO:

1. Choose your focus points
2. Add 1-2 details in major aspects of your worldbuilding that tie back to your focus points

i “If this, then what?”

- Define your core differences from Earth - natural laws and geography.
- From each, extrapolate:
“If this, then what?”

For example - Forgotten Realms:

- If magic is accessible to everyone, what problems arise from that?
- How is it controlled?
- How is it abused?
- How do every day folk protect themselves?
- How do the grand folk protect themselves?

i “If this, then what?”

This also works to **RETROACTIVELY** define setting based on items in your world:

- If you have a magic item or a castle: who built it?
- Why did they need this item?
- Was it the first of its kind or one of many?
- What was their culture and how is that represented in the item?

TO DO:

1. For each point in your world that differs from earth, consider: “If this then what?”
2. Do the same to retroactively define setting from major items and locations

Rich worlds show cause and effect

Why is your world the way it is?

In our world:

- Many racial tensions in Europe and USA stem from the Colonial past
- USA: North vs. South animosity stems from the aftermath of the Civil War
- France: anti-monarch sentiment stems from French Revolution era

History ['h
events of th
past devel
informati

Rich worlds show cause and effect

Why is your world the way it is?

Skryim: White-Gold Concordant

BRIGHT: the defeat of the Dark Lord

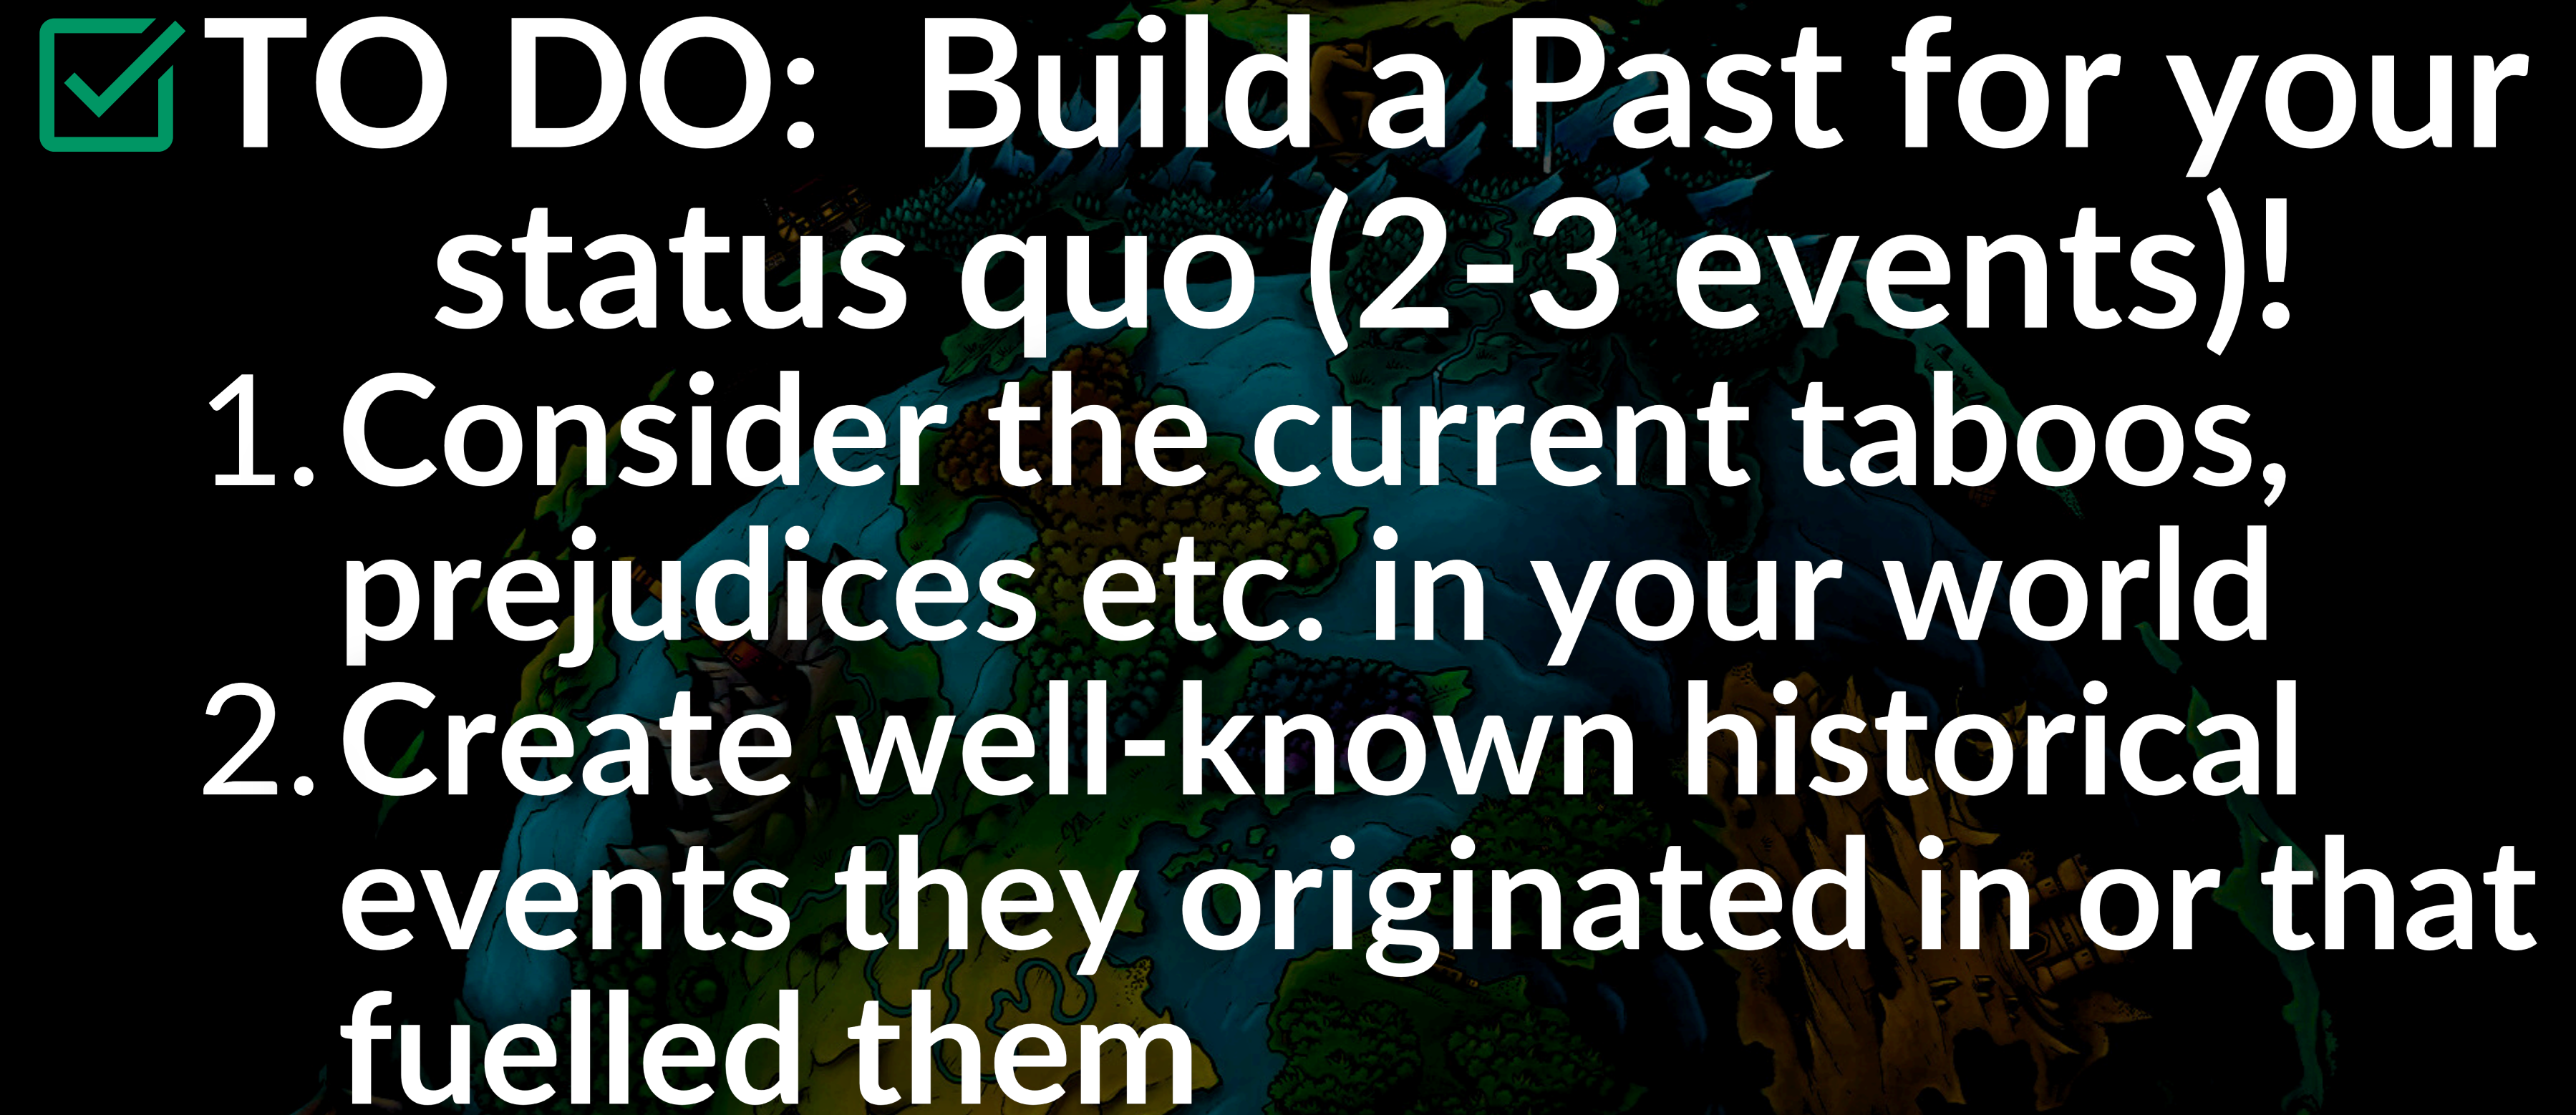

Fallout: the literal apocalypse

Witcher: the conjunction of the spheres

Dark Crystal: the alignment of the planets

Hunger Games: the dark days of the rebellion

- 
- ✓ TO DO: Build a Past for your status quo (2-3 events)!**
- 1. Consider the current taboos, prejudices etc. in your world**
 - 2. Create well-known historical events they originated in or that fuelled them**

i Make your peoples feel real

It's hard to show **CULTURE** at rest

Use traditions, like Rites of Passage & Festivals

Avoid monocultures! People have different opinions, hobbies, concerns, idioms, habits...

Monoculture

8 generations of Dwarves...

Real life

All born 1985 in New York

☑ TO DO: Living, Breathing People

1. Consider your people's beliefs & taboos. How would their births, birthdays, marriages and deaths look?
2. If you have accidentally created a monoculture, consider what the rebels look like! And what happens to them?

i Create geography - and let that impact the spaces in our stories!

Don't create cities in the void!

- every biome has its problems
- consider resources to give tactility & character to your setting (also defines wealth)

A photograph of a flooded square in Venice, Italy. In the foreground, several outdoor dining tables and chairs are partially submerged in murky, greyish water. The tables are round and white, and the chairs have wicker seats and metal frames. In the background, the ornate facade of the Procuratie Vecchie is visible, featuring a series of Gothic arches and a balcony with a decorative railing. To the left, the dome of St. Mark's Basilica is visible under a cloudy sky. The overall scene depicts the impact of high tides on the city's architecture and public spaces.

Al Fresco dining in Venice, Italy

TO DO: Physical places

1. Make sure everything happens in a biome!

2. Consider the challenges and advantages of that, as viewed through your Focus points

i Other places to hunt for stories

Start with what you know!

- **Interrogate your MC's background and play What If!**
 - ...things went wrong
 - they were born 50 years later?
 - they had a different skill?
- **Dig into your Focus points**
- **Consider who is unhappy with the status quo, and why**
- **Consider YOUR favourite thing about your setting/genre & dial up to 11**

But what if you're
starting a world
from scratch?
